

# TREES FOR HABITAT

## FREE TREES FOR HABITAT RESTORATION

The Armidale Tree Group will be providing 19,000 trees to eligible landholders and community groups to assist in their habitat restoration efforts.

This is a great opportunity to increase the biodiversity and resilience of your land. These trees will help support threatened species such as the Koala, Regent Honeyeater and Glossy Black Cockatoo, while also providing habitat for declining woodland birds and mammals.

We are happy to help you with recommendations for your site. Have a chat with our friendly staff to see how we might be able to assist you with free trees for your project.

**Free Trees for  
Landholders and  
Community  
Groups**

**Provide Habitat  
for Threatened  
Species**

## Species Available for Spring/Summer 2022-2023

\*Numbers subject to change as we fill orders

Species Name	Number Available	Species Name	Number Available
<i>Acacia dealbata</i>	1100	<i>Eucalyptus campanulata</i>	40
<i>Acacia fimbriata</i>	100	<i>Eucalyptus elliptica</i>	200
<i>Acacia floribunda</i>	1000	<i>Eucalyptus laevopinea</i>	200
<i>Acacia melanoxylon</i>	100	<i>Eucalyptus melliodora</i>	1400
<i>Acacia rubida</i>	2200	<i>Eucalyptus nova-anglica</i>	500
<i>Acacia viscidula</i>	200	<i>Eucalyptus michaeliana</i>	80
<i>Angophora floribunda</i>	1000	<i>Eucalyptus moluccana</i>	200
<i>Callistemon mixed</i>	200	<i>Eucalyptus obliqua</i>	200
<i>Callistemon ptyoides Ebor Form</i>	200	<i>Eucalyptus pauciflora</i>	120
<i>Callistemon pungens</i>	200	<i>Eucalyptus saligna</i>	200
<i>Callistemon sieberi</i>	200	<i>Eucalyptus sideroxylon</i>	1000
<i>Casuarina cunninghamiana</i>	120	<i>Eucalyptus viminalis</i>	300
<i>Eucalyptus acaciiformis</i>	740	<i>Leptospermum polygalifolium</i>	200
<i>Eucalyptus blakelyi</i>	1000		

## Species Available for Autumn 2023

Species Name	Number Available
<i>Acacia filicifolia</i>	500
<i>Acacia melanoxylon</i>	500
<i>Callistemon pungens</i>	1000
<i>Callitris oblonga</i>	1000
<i>Casuarina cunninghamiana</i>	500
<i>E. camphora</i>	500
<i>E. dalrympleana</i>	500
<i>E. dealbata</i>	1000
<i>Sannantha angusta</i>	500

Our Environmental Services department can help you with any stage of your revegetation project, from site recommendations and preparation, through to weed control, planting and ongoing maintenance.

This initiative was made possible with grant funding from The Foundation for National Parks & Wildlife's Bushfire Recovery Grant and the Australian Government's investment in bushfire recovery for wildlife and their habitats.
