

Saumarez Pack

species list

Your hiko tray of forty seedlings will include a selection of the below trees/shrubs, all of which are endemic and very frost-hardy

Silver Wattle

Acacia dealbata

Size is quite variable, depending on the environment. Very fast growth-rate.

Fern-leaved Wattle

Acacia filicifolia

3-14m

Fast-growing pioneer species.

White Sally/Gossamer Wattle

Acacia floribunda

2-8m

One of the best Acacias you can plant! Hardy; perfect for screening; beautiful flowers; excellent bird habitat; fast-growing—everyone wins!

Australian Blackwood

Acacia melanoxylon

12-15m

The oldest known Acacia in Australia. Beautiful pale yellow pompom flowers make the tree look as if it's covered in popcorn.

Red Stem Wattle

Acacia rubida

2-10m

A good pioneer species: fast growing, hardy, cold-tolerant and nitrogen-fixing.

Baker's Creek Bottlebrush

Callistemon pungens 'Bakers Creek'

3m x 2m

A dense, hardy shrub. Bright red-purple flowers Spring/Summer. Excellent screening and bird habitat shrub, tolerant of most soil types.

Lana Bottlebrush

Callistemon pungens

2-5m x 3-4m

Hardy large shrub. Small leaves with spiky tips, stunning purple brushes. Windbreaks, screens, birds.

River Bottlebrush

Callistemon sieberi

3m x 2m

Very hardy, prune after flowering, fine in wet soil. Windbreaks; screens; bird-attracting

Blakely's Red Gum

Eucalyptus blakelyi

20m

A tough, versatile ATG and koala favourite.

Mountain Gum

Eucalyptus dalrympleana

40m

Tall, fast-growing tree with aromatic foliage and creamy bark that sheds into ribbons.

New England Peppermint

Eucalyptus nova-anglica

15-20m

A remarkably beautiful tree happy in woodland and cold, swampy flats. New growth is a remarkable blue.

Snow Gum

Eucalyptus pauciflora

20m

So used to freezing temperatures it has been introduced in Norway!

Black Sally

Eucalyptus stellulata

Tree or mallee to 15m

Dark, rough bark and glossy green leaves.

Manna Gum

Eucalyptus viminalis

Fast-growing primary food source for koalas.

Small-fruit Hakea

Hakea microcarpa

2m

Suitable for sub-alpine bogs. Extraordinary blossoms like spools of cream thread.

Jellybush

Leptospermum polygalifolium

0.5m-3m

Hardy and very florific with an abundance of white flowers.
